**BERNIE** is a proud Veteran. He is thankful for the support he received after his service in the military. The Navy paid for his education and still provides him with health insurance and other benefits today. Bernie struggled with his mental health after he was discharged. Over time, Veterans Affairs determined he was no longer able to manage his financial affairs and appointed Family Eldercare as his VA Fiduciary to protect his finances and protect him from anyone trying to take advantage of him. Bernie has come a long way with his mental health. His fitness routine is very important to him for both his physical and mental wellness.

**IMKA** is constantly striving to move forward in life. Her mother died when she was an infant, and her birth records were destroyed in a fire at the hospital where she was born. Imka needed help in many areas but was always blocked because she didn't have documentation or know how to get it. She came to Family Eldercare needing assistance with her rent, utilities, and obtaining vital records. We have been successful in getting her caught up on her rent by working with her leasing office. Our case managers helped her obtain a copy of her birth certificate so she could enroll in utility assistance through the CEAP program. Imka is truly a hero of her own life because she never gives up. She knows exactly what she needs and is an advocate for her own mental health. She has sought out counseling, therapy, resources, support, and help from Family Eldercare.
